

COMMUNICATION

We believe communication is an important factor of a successful partnership between a client and builder. We hold a pre-start meeting before works commence, so you can meet all the key members of your building team and discuss any questions you have, as well as holding weekly site visits to keep you up to date with progress, timeframes and queries you may have or any upcoming decisions which need to be made.

QUALITY GUARANTEE

We guarantee our workmanship will be of the highest level as well as that of our qualified subcontractors and trades who we engage. To ensure this we will use our 150 point quality checklist throughout the course of your project.

TIMEFRAMES

We understand how important accurate timeframes are with building and will offer you a comprehensive build timeline and guarantee to keep to it.

ON BUDGET

Some builders like to give you a low price to get the job done then surprise you with lots of variations. We prefer to work closely with you at the start of the project and offer advice and suggestions that will save you time and money and eliminate any surprise variations at the end of the build.

PROFESSIONAL CLEAN ON COMPLETION

We offer a professional clean on completion of your project FREE through one of our trusted cleaning team to ensure your home is spotless before you move back home.
